"Moving Microbial Diagnostics into the 21st Century"

Identifying infectious conditions has moved into a new era. Next generation DNA sequencing provides more accurate and more specific results allowing you to identify microbes you might not have previously found and identifying treatments that WORK!

WIN COOL RAFFLE PRIZES!!

RSVP by Friday, August 16, 2019 to
rsvp@scvma.org

Veterinarians & students invited to bring a veterinary colleague along.
Keep an eye on your e-mail or our DVM2K Facebook page for more educational and fun events.
https://www.facebook.com/groups/SCVMAyoungvets/

This event is geared toward our Youthful Veterinary Community with CE presented in a relaxed atmosphere and open- discussion forum.
We welcome Recent Graduate Veterinarians, Veterinary Students, and their friends and family. You don't need to be an SCVMA member to attend!!

Students Welcome
